Projects

Car Rental Management System

drive.google.com/harini

- A website that allows users to rent a car for a maximum period of two months.
- Implemented function to calculate the total cost of the vehicle booked for a specific period and invoice will be generated.
- It also involves procedures to update the availability status of the vehicle based on the booking status.
- Trigger is being used to call the procedure to update the availability status.
- Tools Used: HTML, CSS, JavaScript, pHp, MySQL

Quiz App

github.com/harinii19/quiz

- Developed a Brain Battle Quiz App, an engaging platform for users to test their knowledge through interactive quizzes.
- Tools Used: HTML, CSS, JavaScript

Portfolio

github.com/harinii19/portfolio

- This project serves as an online portfolio and resume, providing visitors with an overview of my expertise, and contact information.
- Tools Used: HTML, CSS, JavaScript

Volunteering and Achievements

Head of Contents and Social media in Pixels: Managed and created engaging content and oversaw online community engagement.

CBSE Cluster Tennis Competition (Qatar) - (2018-2019): Represented my school at a National level and won Bronze Medal.
