## PROJECTS

---

### Car Rental Management System

HTML, CSS, JavaScript, pHp, MySQL

<https://drive.google.com/file/d/183WvXt7LRDKGGZf09M7q0VWBiqMLYmUl/view?usp=sharing>

- A website that allows users to rent a car for a maximum period of two months.
- Implemented function to calculate the total cost of the vehicle booked for a specific period and invoice will be generated.
- It also involved procedures to update the availability status of the vehicle based on the booking status.
- Trigger is being used to call the procedure to update the availability status.

### Portfolio

- A personal website designed to showcase my skills and projects in web development and design.
- This project serves as an online portfolio and resume, providing visitors with an overview of my expertise, and contact information.

## ACHIEVEMENTS

---

### CBSE Cluster Tennis Competition (Qatar)
